

Hallucicoli

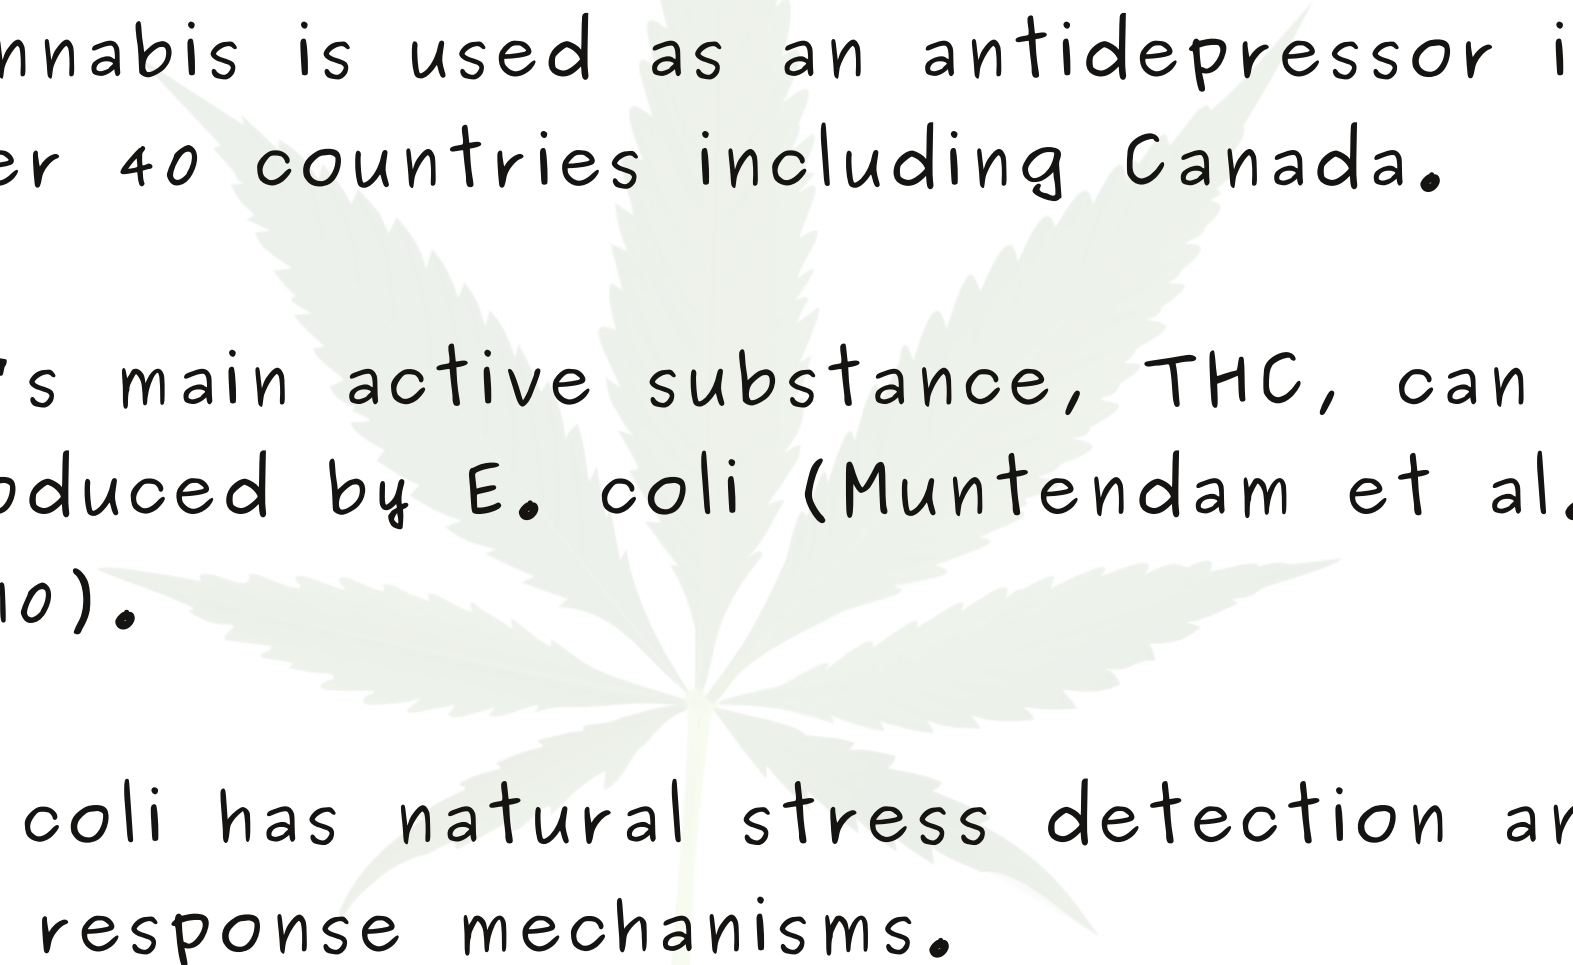

Symbiosis meets happiness

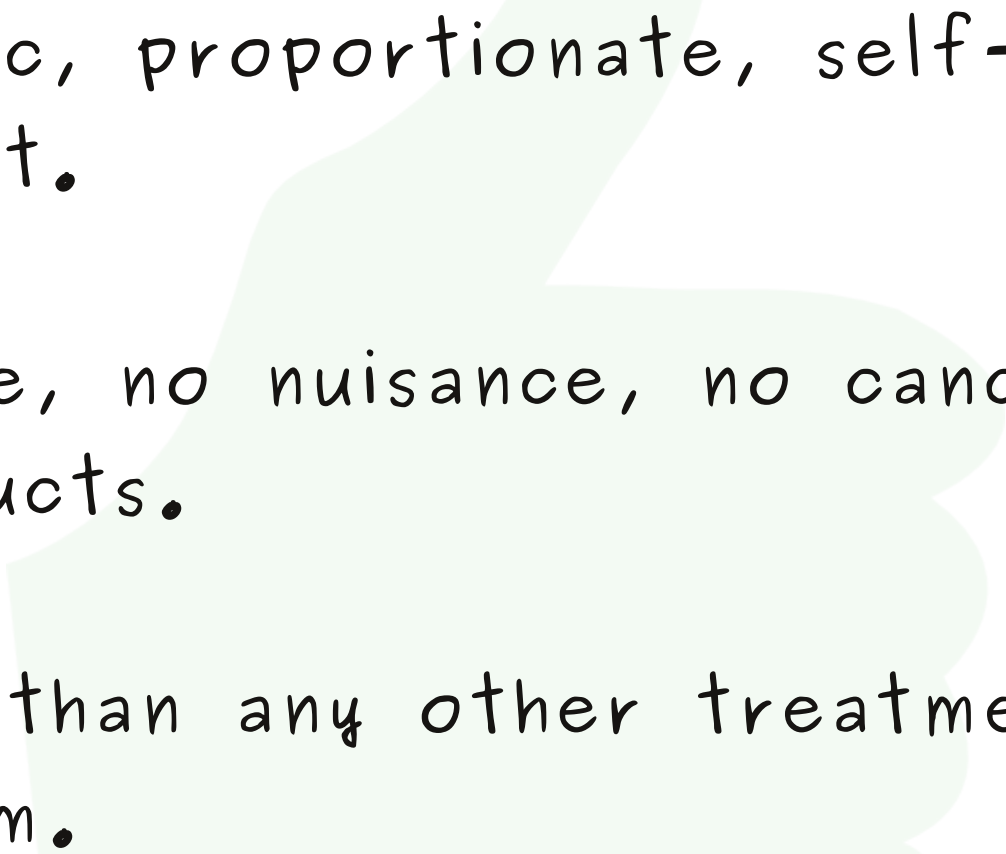

DEPRESSION IN THE WORLD

- > Millions of patients.
- > Heavy medication, heavy costs.
- > Causes are plenty : grief, crisis, iGEM projects, ugly slideshows...
- > Stress of the intestinal flora, including *E. coli* bacteria, is a common symptom.

A NATURAL SOLUTION ?

- > Cannabis is used as an antidepressor in over 40 countries including Canada.
 - > It's main active substance, THC, can be produced by *E. coli* (Muntendam et al. 2010).
 - > *E. coli* has natural stress detection and stress response mechanisms.
- 

ADVANTAGES

- > Automatic, proportionate, self-regulated treatment.
 - > No smoke, no nuisance, no cancerigenous by-products.
 - > Cheaper than any other treatment on the long term.
- 

WHAT'S NEXT ?

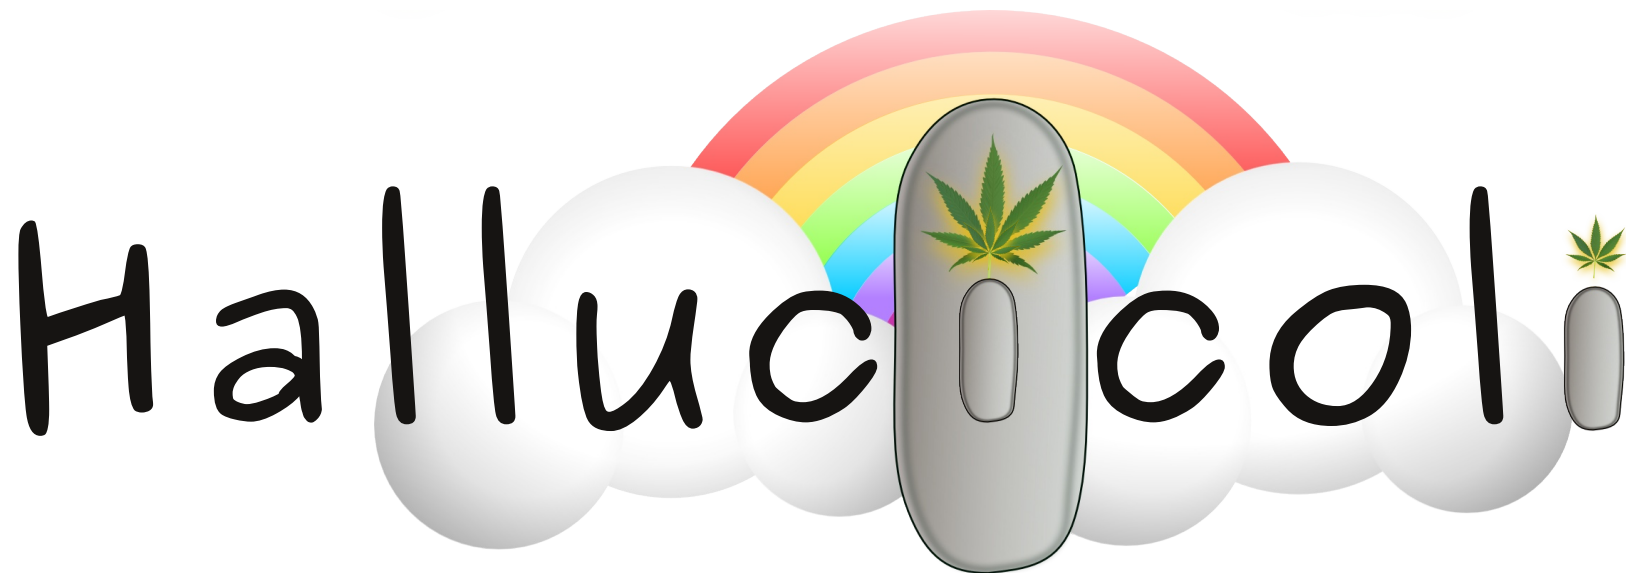

HALLUCICOLI
ACTIVATION PILLS
(in development)

- > Get high in 20mn whenever, wherever !!!
- > No more trouble at the borders ! The pills only contain gene activators (no stupefiant) !

THANK YOU FOR YOUR
ATTENTION !!!

Hallucicooli

It lives in your belly, it talks to your body,
it removes anxiety, and that makes you happy.
